“Developing young, spiritually alive disciples of Christ”

*September is here already! Our summer vacations have come and gone. It seems like the good times are coming to an end...or are they? Think about everything you've done. Write everything down ... how long is your list? Now imagine you're starting a new journey, but this isn't just any journey... this is a spiritual journey. This new journey is road to connecting with Jesus and experiencing the Holy Spirit. Where will the Spirit lead you? What will you do on your journey? What do you need to take with you? These are questions everyone asks themselves about their life in Christ. This year during Soul Food we will journey together to find the answers we're looking for. Peace be the journey!*
